Data Engineering & Analytics: Funds Realignment ($1M+ Reclaimed) • Oracle PL/SQL & ETL Architecture • SQL & Tableau Reporting • Acxiom Identity Data Modeling

AI Strategy & Transformation: DU AI Strategy Certificate • RAG & Agentic Workflows • LLM Risk & Governance • Cohort Training & User Enablement (85+ Trained)

AI STRATEGY & TRANSFORMATION PORTFOLIO - Denver, CO | Sep 2025

• **Internal AI enablement tooling:** Career Advancement Agent * Gap Analysis SKILL, Fact Finding SubAgent

• **LLM risk assessment on ChatGPT Health:** Privacy, governance, compliance, and ethical usage framing across 6 risk dimensions.

• **AI Guardians** AI Transformation Services: AI readiness, governance and risk, use-case prioritization, ROI, vendor evaluation, policy, Agent oversight.

• **Enterprise AI roadmap:** 3-year enterprise AI strategy for Mile High Logistics covering maturity assessment, opportunity identification, budgeting, ROI modeling, and executive strategy communication.

PROFESSIONAL EXPERIENCE

PROGRAM ANALYST, ACQUISITIONS DIRECTORATE | U.S. DEPARTMENT OF THE INTERIOR
Denver, CO | Jan–Sep 2025

• Senior operational and functional lead for the Acquisition Directorate's contracting business operations, serving as top escalation resource for mission-critical acquisition and financial systems in a GS-13-level environment.

• Owned enterprise application support for mission-critical procurement and financial systems, keeping them compliant, secure, and available under strict federal data-governance requirements.

• Served as senior escalation resource for system issues impacting contracting operations, coordinating incident resolution across technical and business teams to shorten time-to-resolution.

• Delivered targeted user training and operational guidance that improved system adoption and reduced repeat support requests across the directorate.

SENIOR ANALYST CONSULTANT | ARKSOLUTIONS — CLIENT: IBC ACQUISITION DIRECTORATEDenver, CO | 2011–2025

• Architected DOI FBMS data conversion and translated complex business requirements into integrated enterprise workflows; recognized with two Department of the Interior awards.

• Reclaimed $1M+ in recurring annual savings through government contract funds deobligation, executing funds realignment that resolved financial discrepancies between contracting officials and service providers.

• Served as Unison PRISM administrator for seven years, overseeing access management, data integrity, procurement workflows, and stakeholder support across the Acquisition Directorate.

• Resolved 5 to 10 mission-critical business issues daily through root-cause analysis, workflow correction, testing, and cross-functional coordination.

• Designed and delivered operational training for 85+ users, improving adoption and reducing repeat support demand.

• Chief POC for IPP Payment, Vendor Invoicing, Accounts Payable, and Core Financials Funds Management; mediated aviation vendor IPAC billing disputes.

• Supported contracting officials with special FBMS defense award exemption procedures and assisted with DARPA project contract modifications.

SOLUTIONS DEVELOPER / SOLUTION ARCHITECT | ACXIOM CORPORATION - 2010

• Built Citibank's first Online Identity Scoring Model (early AI/ML) and provided production support for the Application Verification System (AVS).

• Supported customer identity-verification solutions for financial-services and insurance clients; gathered requirements, analyzed customer data needs, and designed Oracle data warehouses.

• Standardized company-wide SDLC/SCM methodology and led cross-functional process-improvement teams.
